Cross Sectional Shape:

Emi hollow

Cross Section Inside Diameter:

0.108 inches

Cross Section Outside Diameter:

6.778 inches

Environmental Protection Material Location:

Throughout rf shielding gasket

Material:

Copper emi/rfi conductorsilicon environmental seal

Material Specification:

Mil-g-83528, type c military specification single material response emi/rfi conductormil-g-83528, type c military specification single material response environmental seal

Precious Material And Location:

Emi/rfi conductive particles silver

Precious Material:

Silver

Surface Treatment:

Silver emi/rfi conductor

Surface Treatment Specification:

Mil-g-83528, type c military specification single treatment response emi/rfi conductor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0

Mil-std (military Standard):

Mil-g-83528 spec.
