Cross Sectional Shape:

Emi

Hole Diameter:

0.140 inches

Overall Length:

12.000 inches

Overall Width:

1.130 inches

Center To Center Distance Between Bolt Holes Along Length:

0.500 inches

Cross-sectional Height:

0.410 inches

Bolt Hole Quantity:

24

Special Features:

Twenty four pieces of beryllium copper 0.050 in c to c mounted on self adhesive backing

Material:

Copper alloy 172 emi/rfi conductor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
