Environmental Protection:

Corrosion resistant

Width:

4.000 inches

Length:

36.0 yards

Min. Tensile Strength (psi):

21 pounds per square inch

Nominal thickness:

3.0 mils

Special Features:

Non-conductive adhesive

Material:

Copper basic

Material Specification:

Cho-foil 301 mfr ref 1st material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A14300
