Cross Sectional Shape:

Emi

Hole Diameter:

0.156 inches

Overall Length:

12.500 inches

Overall Width:

0.630 inches

Cross Section Outside Diameter:

0.250 inches

Bolt Hole Quantity:

4

Features Provided:

Nonseparable

Environmental Protection Material Location:

Rf shielding gasket outer edge

End Cut Angle:

45.0 degrees

Material:

Silver emi/rfi conductor

Precious Material And Location:

One surface silver

Precious Material:

Silver

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
