**General Description:**

Module, single input; analog addressable device; operating voltage range 15.2-19.95 vdc, standby current 250 ua, activated current 400 ua, operating temperature range 32-120 degrees f; operating humidity range 0-93 percent rh, construction- high impact engineering polymer, with wall plate

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A23900
