Cross Sectional Shape:

Emi hollow d

Cross-sectional Height:

0.250 inches

Center Hole Diameter:

0.125 inches

End Application:

3) unit 3 e/i fscm 49956

Special Features:

Power and control assembly

Material:

Rubber

Material Specification:

Zz-r-765 federal specification all material responses

Precious Material And Location:

Conductive filler: silver plated aluminum particles silver

Precious Material:

Silver

Surface Treatment:

Aluminum and silver

Specification Data:

49956-g528411 manufacturers standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
