Body Style:

Extruded

Overall Length:

0.480 inches

Overall Height:

0.009 inches

Overall Width:

0.001 inches

End Application:

Receiver transmitter

Mounting Facility Type And Quantity:

Base all mounting facilities

Special Features:

Pressure sensitive adhesive on one side; material is cho-therm 1679 (polyimide film/boron-nitrate filled silicon); item is not extruded

Material:

Plastic polyamide and rubber silicone class q

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A03600
