Overall Diameter:

0.063 inches

End Application:

4940-0`-385-1794, servicing platform, self-propelled

Voltage Rating In Volts:

12.0 dc

Current Rating In Amps:

20.0

Mounting Method:

Cable

Special Features:

Weather pack male pin specifically designed for electrical connections inside engine compartments; -40 to +125 degrees c; 14-16 awg

Material:

Any acceptable contact

Surface Treatment:

Tin contact

Style Designator:

Pin crimp contact

Terminal Type And Quantity:

1 crimp and solder mounting end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A222a0
