**Overall Diameter:**

0.063 inches

**End Application:**

4940-0`-385-1794, servicing platform, self-propelled

**Voltage Rating In Volts:**

12.0 dc

**Current Rating In Amps:**

20.0

**Mounting Method:**

Cable

**Special Features:**

Weather pack male pin specifically designed for electrical connections inside engine compartments; -40 to +125 degrees c; 14-16 awg

**Material:**

Any acceptable contact

**Surface Treatment:**

Tin contact

**Style Designator:**

Pin crimp contact

**Terminal Type And Quantity:**

1 crimp and solder mounting end

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A222a0
