Overall Width:

0.750 inches

Thickness:

0.500 inches

End Application:

5895-01-384-6751 antenna group

Special Features:

Expanded rubber core surrounded with wire mesh; frequency range 1.0 kilohertz to 10.0 gigahertz

Material:

Rubber and steel and copper and tin

Shape:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A506y0
