Cross Sectional Shape:

Metal

Aperture Diameter:

7.890 inches

Aperture Width:

7.890 inches

Cross Section Outside Diameter:

0.139 inches

End Application:

235014360005

Product Name:

Seal, round section, environmental/emvi

Special Features:

Hardness shore a 87 max, compatible with aluminum 5052 and 6061, epdm elastomer metal filled; styl circular

Material:

Fiber nonasbestos emi/rfi conductor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
