Overall Width:

3.090 inches

Key Quantity:

20

End Application:

Controller microprocessor

Product Name:

Keypad

Key Type:

Push button

Special Features:

Legend for key 1: menu; legend for key 2: diag; legend for key 3: ga sel; legend for key 4: led chk; legend for key 5: next; legend for key 6: syst stat; legend for key 7: syst vlvs; legend for key 9: rtc; legend for key 10: last; legend for key 11: cell stat; legend for key 12: cell vlvs; legend for key 14: chng; legend for key 16: sh dn stat; legend for key 17: init vlvs; legend for key 19: entr; key 15 marked with a triangle symbol pointing upward; key 20 marked with a triangle symbol pointing downward

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A509m0
