Conductive Gasketing Material - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5999-01-481-5260

Overall Diameter:
0.103 inches
Material:
Aluminum and silicone
Precious Material And Location:
Emi/rfi conductive particle surfaces silver
Surface Treatment:
Silver
Shape:
Circular
Specification Data:
Mil-g-83528/11 government specification
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A506y0
Mil-std (military Standard):
Mil-g-83528 spec.
