Cross Sectional Shape:

Wire and composition

Overall Length:

36.000 inches

Overall Width:

0.250 inches

Cross-sectional Height:

0.093 inches

Special Features:

Silicone sponge ams-3195 monel 0.0045 dia. Wire per qq-n-

Material:

Nickel alloy emi/rfi conductor and silicone emi/rfi conductor

Material Specification:

Qq-n-281b federal specification all material responses emi/rfi conductor

Style Designator:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
