Hole Diameter:

0.203 inches

Overall Length:

2.000 inches

Overall Width:

2.000 inches

Aperture Diameter:

0.010 inches

Center To Center Distance Between Bolt Holes Along Width:

1.563 inches

Center To Center Distance Between Bolt Holes Along Length:

1.563 inches

Cross-sectional Height:

2.000 inches

Center Hole Diameter:

0.010 inches

End Application:

Filter sub engineering and diesel sys

Special Features:

Next assembly 6511et3, bearing system assembly thp, color gray, thickness 0.062, one corner holes may be slots at i/s discretion, emi shielding

Material:

Silicone emi/rfi conductor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
