**Body Style:**

Rectangular

**Overall Length:**

2.720 inches

**Overall Height:**

0.010 inches

**Overall Width:**

1.366 inches

**End Application:**

Dc/dc converter, interpoint corp

**Special Features:**

Non-flammable; thermally stable; non toxic; does not require grease and does not exhibit the cracking problems of ceramic materials; will tolerate soldering process temperatures; 300-600 lbs/sq in mounting pressure recommended; recommend using flanged model; thermal transfer m 60 degrees c to 180 degrees c continuous operation; 4000 vac breakdown voltage typical

**Material:**

Glass fiber and rubber silicone class q

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A03600
