Body Style:

Rectangular

Overall Length:

2.720 inches

Overall Height:

0.010 inches

Overall Width:

1.366 inches

End Application:

Dc/dc converter, interpoint corp

Special Features:

Non-flammable; thermally stable; non toxic; does not require grease and does not exhibit the cracking problems of ceramic materials; will tolerate soldering process temperatures; 300-600 lbs/sq in mounting pressure recommended; recommend using flanged model; thermal transfer m 60 degrees c to 180 degrees c continuous operation; 4000 vac breakdown voltage typical

Material:

Glass fiber and rubber silicone class q

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A03600
