Electrical Grounding Strip - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5999-01-485-4647

Special Features:

T174-k

Tested to withstand 130, 000 amps peak current surge in accordance to mil-std-1757, test method t02, current component a, using a dampted oscillatory type waveform, operating temperature -40 degrees celcius to +85 degrees celcius, storage temperature -40 degrees celcius to +80 degrees celcius, weather resistant: salt spray, rain, ice, wind, uv -supplied w/ weatherproofing material which must be installed properly to insure optimum performance in these conditions.

motalica properly to moure optimism ponormanoe in mode contaitone.
Material:
Copper
Material:
Copper
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
