Cross Sectional Shape:

Wire and composition

Overall Length:

0.750 inches

Cross-sectional Height:

0.062 inches

Special Features:

End item: common rack and launcher test set

Color:

Black

Material:

Silicone and nickel alloy

Material Specification:

Mil-g-83528 military specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0

Mil-std (military Standard):

Mil-g-83528 spec.
