Aircraft Resistor Assembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5999-01-493-2080

Overall Length:
6.690 inches
Overall Width:
3.970 inches
End Application:
S3b s3a mod
Accessory Components And Quantity:
Mounting plate 1; loose wire assembly 1; nut 5; clamp 1; screw 1; washer 7; resistor 2; terminal 4
Criticality Code Justification:
Agav
Product Name:
Resistor assembly, acls-nav interface wired assembly
Special Features:
Aluminum is 0.090 inches thick
Material:
Aluminum alloy
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
