End Application:

Ainac/ric

Accessory Components And Quantity:

Printed wiring board 1; solder 10; adhesive label 2; core, toroidal, inductor 5; wire, mag, electric 12; capacitor, fxd, cer (chip) 5; capacitor, chip, tantalum 5; rectifier 5; semiconductor device 6; resistor, fxd, film 4

Criticality Code Justification:

Agav

Product Name:

I navy) circuit card assembly bias/control distribution

Material:

Tin alloy and plastic and copper

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
