End Application:

Search and rescue helicopter

Special Features:

Current capacity type 5a; product group d subminiature; product sub family d sub standard; 1 signal pin; straight; size 20; component type contacts; cable; gender receptacle; contact plating gold over nickel; contact termination crimp 20-24 awg; contact resistance 8 milli ohms max; contact material copper alloy, stainless steel; temp rating m55.0 to 125.0 degrees c; dielectric withstanding voltage 1250 vac at sea level; use with standard d ma or d a connectors, see tooling section for crimp tooling

Material:

Copper alloy contact and stainless steel contact

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
