**Ac Voltage Rating:**

115.0 volts

**Err Default:**

Err default

**Special Features:**

End item electronic cooling water skid, primary coolant: deionized water, supply temperature: 68 degrees fahrenheit, secondary coolant: ships fress water chilled, motor 3/4hp, 3450rpms

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T213-e
