Aperture Width:

1.750 inches

Environmental Protection Material Location:

Throughout sealing gasket

Special Features:

Non material shell is butyl rubber in accordance with ams 3238 exterior surfaces shall have a copper strike length 4.157 inches width 2.282

Material:

Aluminum alloy environmental seal

Style Designator:

Oval

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
