Body Material:

Brass, qq-b-613 and silicone rubber and plastic, vinyl

End Application:

Cass opts 310

Width Across Flats:

0.650 inches

Mounting Method:

Terminal

Fastening Facility:

Wire rope with terminal

Chain:

Not included

Insert:

Not included

Special Features:

Drawing name - cap, protective, electrical connector-coaxial, series tnc and tk; electrical cap consists of cap, gasket, wire rope with terminal; wire rope length is 8.750 to 9.250 inches

Height:

0.718 inches

Material:

Nickel copper alloy and steel, stainless

Material:

Nickel alloy and stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T174-g
