Product Name:

Chip bead (smd) for signal line

Special Features:

Chip bead (impeder), mmz series offers 4 construction materials; size standardized for use by automatic assembly equipment; no preferred orientation; either flow or reflow soldering methods can be used due to electroplating of the terminal electrodes; high reliability due to an entirely monolithic structure; closed magnetic circuit structure allows high-density installation while preventing crosstalk between circuits; low dc resistance structure of electrode prevents wasteful electric power consumption; contains no lead and also support lead-free soldering; conforming to rohs directive

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
