**Product Name:**

Chip bead (smd) for signal line

**Special Features:**

Chip bead (impeder), mmz series offers 4 construction materials; size standardized for use by automatic assembly equipment; no preferred orientation; either flow or reflow soldering methods can be used due to electroplating of the terminal electrodes; high reliability due to an entirely monolithic structure; closed magnetic circuit structure allows high-density installation while preventing crosstalk between circuits; low dc resistance structure of electrode prevents wasteful electric power consumption; contains no lead and also support lead-free soldering; conforming to rohs directive

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
