Cross Sectional Shape:

Emi

Tempurature Rating:

150.0 degrees celsius

Aperture Diameter:

11.947 inches

Cross Section Outside Diameter:

0.090 inches

End Application:

Mk 45, naval gun system

Product Name:

Gasket, emi

Special Features:

Elstomer: silocone rubber; fillter material: nickel/graphite; operating temperature: negative 45 to 150 degree celsius

Material:

Rubber synthetic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
