Environmental Protection:

Heat resistant

Width:

2.0 inches

Length:

18.0 yards

Min. Tensile Strength (psi):

25 pounds per square inch

Nominal thickness:

0.066 millimeters

Product Name:

3m 1181 tape, copper foil with conductive adhesive

Special Features:

Electrical resistance 0.005ohms

Material:

Copper and plastic acrylic background

Supplementary Features:

Backing thickness 0.04mm, breaking strength 25lbs per inch or 44n per 10mm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A14300
