Overall Length:

15.75 inches

Overall Height:

6.61 inches

Dc Voltage Rating:

48.0 volts and 56.0 volts

Internal Battery Accommodation:

Not included

Product Name:

Outdoor thermoelectric cooler assemblies

Special Features:

Air to air thermoelectric assembly (tea); cooling float voltage 193/214w; heating 250w; current draw 5.6/7.2a; number of connectors - 3; temperature range minus 40 to 55 degrees c; tembient = 32 degrees c; 200w capacity rate; 2 mounting holes - 06.3 mm and 6 mounting holes - 0.55 mm; fan location cold side/warm side

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T213-e
