Cross Sectional Shape:

Round

Cross Section Outside Diameter:

3.6 millimeters

Optical Fiber Type:

Multimode

Conductor Quantity:

2

Special Features:

Duplex fiber; st-mtrj connectors; 0.3db insertion loss; right/left long black boots; polymer composition ferrule; flipped fiber path configuration; tight buffered

Color:

White core conductor first conductor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A077a0
