Overall Height:

1.720 inches

Overall Width:

8.600 inches

End Application:

Con red size op sta 899090-101

Current Rating:

1.200 amperes

Product Name:

Switch, fiber optic

Special Features:

High performance fiber optic route protection switch system with ethernet 10baset port that provides automatic switching between primary and secondary fibers in case of fiber break and/or optical network equipment failure; depth 5.4 inches; power +5 vac at 1.2 amp; power connector terminal block; operating temp 0 to +50 degrees c; humidity type 0 to 95% rh, non condensing; includes power, local tx, local rx, remote tx, loss of local source, fault in remote fibers status indicators (led and alarms); multimode fiber type channels; 2 channel capacity; operating wavelength 850 nm; st fiber connectors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
