Overall Length:

3.450 inches

Overall Height:

2.380 inches

Overall Width:

1.750 inches

End Application:

Missile, minuteman iii, lgm-30

Product Name:

Photoelectric sensor (glass fiber-optic model q45vr3fvq)

General Description:

Range varies by sensing mode and fiber optics used. Cable - 5-pin mini-style qd, supply voltage: 24 - 250v ac, output type: spdt electro-mechanical relay

Type/model Designation:

Q45vr3fvq

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
