General Description:

Operates from internal power supply 7-25vdc @250ma or 6.3 to 18vac rms 50-60hz; 8 channels; transmitter input contact closure of ttl input; high input 2.5v min 5.5v max/low input 0v min 0.8 max; allowable transmission loss 10db; operating wavelength 820nm; optical connectors sma; elec connector 0b-25p; operating temp 0 to 50c; size 10.6x11.5x4.4cm; activated by 8 contact closures or ttl signals which produces a multiplexed pulse train which is transmitted over optical fiber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
