End Application:

Mark ivb

General Description:

Youtput drive 6 ttl loads; pwr supply +-5 to +-12*v; current drain maximum +40, -10ma; logic "1" output >2.5v logic at "0" output <0.8v; comparator threshold <40mv; rms noise at analog output <100uv; output is non-invertingto the input state

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
