End Application:

Peace shield a

Special Features:

2contains video and 2 lasers; pwr input 115/230 vac, 1 pwr supply; videointerface w/75q unbalanced bnc only; 1 rack unit height 1.75", depth 15.25", width 19"; transmits 5.8 mhz video, (4.5 mhz w/quad-43) audio &/or data ona single optical channel

Functional Description:

Used in transmission of video, audio and data on optical fiber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
