End Application:

Automated surface observing system (asos)

Special Features:

Type: full duplex rs-232c; data rate: 2.4 kbps; data type: asynchronous; transmission range: 10-1500 feet; emitter type: led (light emitting diode); emitter wavelength: 820-850 nm; detector type: pin; optical budget: 7db; optical budget into 62.5/125 micron; na = .28; graded index; multimode fiber at 25 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
