Overall Length:

8.000 inches

Overall Height:

1.750 inches

Overall Width:

8.500 inches

Special Features:

A fiber optic media access unit which complies with the 10base-t and 10 base-fp/ieee 802.3 standard; provides a transparent connectivity between the 10base-t unshielded twisted pair plant for migration to fiber and/or network expansion with the 10base-fp fiber plant; equipped with several diagnostic and status indicator leds for maintenance and troubleshooting; supports distances up to 500 m or more to the passive fiber optic star coupler; built in fiber break detection; can be used as 830 nm light source for network and fiber cable plant; built in power supply; operating tem 0 to 55 degrees c; power input 100-120 v, 0.3 a or 200-240 v, 0.15 a; optics: transmitter-high radiance aigaas edge emitting led; receiver-si pin diode based

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
