Storage Temperature Range:

-55.0/+100.0 degrees celsius

Current Rating:

60.000 milliamperes or 80.000 milliamperes

Product Name:

Dtl-1300 hermetic data link module

Special Features:

Electrical interface negative 5.2 volts; power dissipation 300 or 450 mw; data rate 220 mb/s; wavelength of operation 1320 nm; operating temperature negative 40 to positive 85 degrees celsius; supply voltage and input voltage 6.0 volts; small 16 pin hermetic metal packages

Material:

Glass fiber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
