End Application:

Shipboard protection system, electronics assembly

Product Name:

Bi-directional contact closure transceiver (850nm)

Special Features:

Provides one-way or bi-directional transmission over one or two multimode optical fibers. Input: dry contact closure; output: spst relay, 0.5a contact rating, normally open; wavelength: 850 nm; multimode; number of fiber: 2.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
