Overall Length:

3.500 inches

Overall Height:

2.300 inches

Overall Width:

1.000 inches

Current Rating:

200.000 milliamperes

Wattage Rating:

6.000 watts

Voltage In Volts And Current Type:

12.0 dc

Special Features:

Designed as a stand alone unit, used to transmit video signal from source to a stand alone receiver part no. Mmv-120/rcv-l1-st-sa, via fiber optic cable, rcvr then connects to monitor completing the system; -16 dbm output power; 10-30 mhz video bandwidth; ideal for cctv, cga, or cctv extensions

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
