**Overall Length:**

7.140 inches

**Overall Height:**

1.390 inches

**Overall Width:**

6.530 inches

**Voltage In Volts And Current Type:**

12.0 dc

**Special Features:**

1300nm wavelength; sc fiber connector; rs530 terminal block; data rates up to 5 mbps; pin diode receiver; diagnostic functions: local and remote loopback, signal generator and disable arm; indicators: sytem, electrical system and optic signal status; -10 to 50 degrees c operating temperature; distances up to 80km; built-in test signal generator; built-in power redundancy; local dry contact alarm relay; rackmount

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23900
