Overall Width:

7.14 inches

Dc Voltage Rating:

12.0 volts

Optical Fiber Type:

Multimode

Power Supply Output Current Rating:

800.0 amperes

Product Name:

Maxi fiber optic mode converter/repeater

Optical Pulse Wavelength In Nanometers:

850 and 1550

Maximum Distance In Meters:

100.0 kilometers

Special Features:

Converts multimode to single mode and vice versa, data rates up to 200 mbps, repeats multimode and single mode signals, local dry contact alarm relay, 8 diagnostic led indicators, builtin power supply

Height:

1.39 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A545u0
