Features Provided:

Hermetically sealed case

Current Rating Per Characteristic:

25.00 amperes all primaries preset

Power Rating Per Characteristic:

100.0 watts any acceptable of standard range

Maximum Operating Temperature Per Measurement Point:

40.0 degrees celsius ambient air and 80.0 degrees celsius ambient air

Special Features:

Single and stacked devices up to 140 watts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
