Overall Length:

1.281 inches

Terminal Length:

0.750 inches

Lens Transparency:

Transparent

Terminal Circle Diameter:

0.250 inches

Thready Qty Per Inch (tpi):

32

Semiconductor Material:

Gallium arsenide

Current Rating Per Characteristic:

30.00 amperes all primaries preset

Power Rating Per Characteristic:

100.0 watts forward power dissipation, dc pascal

Maximum Operating Temperature Per Measurement Point:

80.0 degrees celsius ambient air

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A110a0
