Special Features:

Laser; 30 cubic centimeters in size; weight 4 oz; mechanical locking interface; built-in potentiometer on front of module permits adjusting drive current to source; mainframe displays current; single transverse laser source laser power may be varied over 10 db range; rear 9-pin d-connector; modulates laser over range 0-2 khz; wavelengthporm 5 nm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
