**Product Name:**

Pocket-sized dual wavelength light sources

**Special Features:**

Designed for dual wavelength measurement in various single mode or multimode applications. The ols-6 is designed for dual wavelength measurement in various single mode applications. It has two laser diodes (1310/1550 nm or 1550/1625nm) on two output ports

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A23900
