Overall Length:

43.563 inches

Overall Height:

14.594 inches

Overall Width:

19.563 inches

Identification Designator:

Cd286; k 256

Motor Type:

Squirrel cage and shunt wound

Individual Motor Quantity:

2

Motor Controlling Agency:

General electric

Special Features:

Lifting eye on each motor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T322-c
