Shaft Rotation Direction:

Clockwise single end

Duty Cycle:

Continuous

Specific Use:

Magnecord model 1000

Winding Type:

Induction-split phase

Cooling Method:

Ambient air

Features Provided:

Vertical mounting position and horizontal mounting position

Connection Type And Voltage Rating In Volts:

115.0 line to neutral single input

Phase:

Single input

Frequency In Hertz:

50.0 input

Terminal Type And Quantity:

3 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A271a0
