Insulation Material:

Plastic, phenol-formaldehyde

Inside Diameter:

3.938 inches

Outside Diameter:

5.188 inches

Overall Width:

0.312 inches

End Application:

Type no. Ed-52

Segment Quantity:

7

Segment Material:

Copper

Cross Connected Feature:

Not provided

Brush Contacting Surfaceoutside Diameter:

4.750 inches

Shaft Attachment Method:

Pressed on shaft

Special Features:

Teletype corp, signal distortion set, type no. Ed-52

Shape:

Disk

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T321-a
